# Chairman's Statement

Dear Shareholders,

On behalf of the Board Directors of Integrated Logistics Berhad (ILB), I am pleased to present the Annual Report for the year 2014, incorporating the Audited Financial Statements of the Group and the Company for the financial year ended 31 December 2014.

### PERFORMANCE REVIEW

Having disposed of most of the China operations in the previous year, the Group recorded a lower revenue of RM42.4 million for the year under review as compared with a revenue of RM121.7 million in the previous year. The Group incurred a Net Loss of RM41.1 million for the year compared with a Net Profit of RM145.6 million in the previous year.

### CHINA

Upon completion of the Disposal of the warehouses in Shenzhen & Henan in 2013, the remaining operations of the Group are in Wujiang, Shenzhen and Hong Kong. The Group also has an equity interest of 25.8% in the equity of Hengyang Petrochemical Logistics Ltd. (Hengyang), a company listed on the Catalist Board of the Singapore Stock Exchange. The current year's pre-tax loss is mainly attributable to a RM41.55 million provision for the impairment in value of the Hengyang investment.

## PROSPECTS

### DUBAI

The Group holds 50% equity of a joint venture company, Integrated National Logistics DWC-LLC ("INL"). INL provides a wide range of high quality warehouse & coldroom facilities and valued added logistics services catering to customers across the MENA (Middle East & North Africa) region.

INL's warehouse facilities achieved average occupancy of 52% for the full year 2014. The demand for INL's facilities continues to rise and we expect the occupancy rate to improve further in 2015. However, the sharp plunge in crude oil prices since the last quarter of 2014 has brought increased volatility to the market and the extent of the impact on the Group's operations are still being assessed.

### CHINA

Although China's Gross Domestic Product (GDP) growth for 2015 is expected to be slightly higher at 7.2% as compared with 2014's 7.0%, the slowdown of the global economy is expected to bring new challenges for the Group's remaining China operations. However, it is to be noted that the contribution from the China operations to the Group has been significantly reduced upon the disposal of the Shenzhen & Henan warehouses in the previous financial year.

As all the Company's six warehouses in Wujiang are enjoying full occupancy, the company is proceeding to construct three additional warehouses at a cost of RM56 million. These warehouses are scheduled to be ready in financial year 2015 and would add an additional 32,786 sq metres of warehouse space which would contribute to group revenue in the following financial year.

## DUBAI

The United Arab Emirates is expected to achieve a higher GDP growth of 4.5% for 2015 as compared to 2014's 4.0%. This higher GDP growth is expected to generate additional demand for warehouse and logistics services in Dubai. However, the sharp slide in global oil prices had impacted major world economies in the 4th Quarter of 2014 and this is expected to affect the utilization of INL's facilities. As such, the Board expects 2015 to be another challenging year for the Group.

However, Dubai's new Al Maktoum International Airport is now fully operational & INL is expected to benefit from the close proximity of INL's warehouses to the new airport with increased demand for logistics services generated by the new airport. In addition, the World Expo to be hosted by Dubai in 2020 is expected to boost the demand for a wide spectrum of logistics services in Dubai in the coming years & INL is poised to benefit from the resultant demand for warehouse facilities and logistics services created by the World Expo.

## DIVIDENDS

### Share Dividend

During the year, the Board declared a Special Share Dividend of 8 treasury shares for every 100 existing ordinary shares of RM1.00 each which was duly credited to all shareholders accounts with Bursa Malaysia Depository Sdn Bhd on the 3 March 2014.

### Cash Dividend

Subsequent to the year end, the Board had on the 25 February 2015 declared an interim single tier Dividend of 3.5 sen per share in respect of the financial year ending 31 December 2014, payable on the 27 March 2015.

## SHARE BUY-BACK

During the financial year ended 31 December 2014, the Company purchased a total of 833,200 ordinary shares of RM1.00 each of the issued & paid up share capital from the open market at an average price of RM0.745 per share. The total consideration for the share buy-back was RM620,559 and was financed by internally generated funds.

All the shares purchased during the financial year had been retained as treasury shares and the total number of shares retained as treasury shares as at 31 December 2014 was 1,309,375 ordinary shares of RM1.00 each.

## ACKNOWLEDGEMENTS

I wish to express the Board's appreciation to the management and staff of the Group for their continuing dedication, commitment and diligence during the year. Our sincere appreciation is also extended to our valued customers, business associates, shareholders and other stakeholders.

## REINFORCE INDEPENDENCE

The Non-Executive Directors are not employees of the Company and do not participate in the day to day management of the Company. Three of the four Non-Executive Directors, including the Chairman, are independent directors and are able to express their views without any constraint. This strengthens the Board which benefits from the independent views expressed before any decisions are taken. Should any director have an interest in any matter under deliberation, he is required to disclose his interest and abstain from participating in discussions on the matter. The Nomination & Remuneration Committee has reviewed the performance of the independent directors and is satisfied they have been able to discharge their responsibilities in an independent manner.

None of the current independent board members had served the company for more than 9 years. As recommended by the MCGG 2012, should the tenure of any independent director reach nine years, shareholders approval will be sought at a General Meeting if the services of the director concerned are still required, or the director concerned will be re-designated as a non-independent director.

## FOSTER COMMITMENT

During the year, all the Non-Executive directors have committed sufficient time to carry out their duties during the tenure of their appointments.

### Continuing Development Program

All new appointees to the Board are given an introduction to familiarize themselves with the Group's operations so as to assist them in discharging their duties and responsibilities. They are required to attend the Mandatory Accreditation Programme required by Bursa Malaysia and thereafter to continually upgrade their knowledge and exposure through in-house training programmes as well as courses conducted by external parties. All Directors have completed the Mandatory Accreditation Programme as stipulated by Bursa Malaysia.

During the year, Board members attended a seminar with topic on "Common Offences Committed by Directors Under Companies Act 1965 - The Pitfalls and Remedies" conducted by Ms Samantha Tai Yit Chan of The Malaysian Institute of Chartered Secretaries and Administrators (MAICSA).

## CORPORATE GOVERNANCE STATEMENT

Mr Lee Kay Loon attended a session on "Enhancing Internal Audit Practice conducted by Bursa Malaysia and Mr Motohiko Tachibana, the Group Risk Officer attended a session on "Enhanced Understanding of Risk Management and Internal Control" conducted by Bursa Malaysia during the year.

### UPHOLD INTEGRITY IN FINANCIAL REPORTING

The Board strives to provide true, fair and comprehensive financial reporting of the Group's performance in the audited financial statements and quarterly financial reports together with material disclosures in the notes to accounts, in accordance with the MFRS and Bursa Malaysia requirements.

The Audit & Risk Management Committee exercises professional oversight of the integrity of the financial reports before presenting the financial statements to the Board for approval. The Committee also provides assurance to the Board, with support and clarifications from the external auditors that all the financial statements and reports presented are in compliance with applicable laws and accounting standards and give a true and fair view of the Group's performance and financial position.

The Board has a formal and transparent relationship with the auditors. The Audit & Risk Management Committee recommends to the Board on the appointment of the external auditors which is subject to the approval of shareholders at the AGM whilst their remuneration is determined by the Board. The role of the Committee is further set out in their Report.

The Board has private sessions and dialogues through the Committee with the external auditors, in the absence of the executive directors and the management. For the year under review, there were two such dialogue sessions with the external auditors.

## CORPORATE GOVERNANCE STATEMENT

Relevant Internal control systems are implemented for the day to day operations of the group. The Internal Audit Department has an independent reporting channel to the Audit & Risk Management Committee and is authorised to conduct independent audits of all the departments and offices within the group. It reports the findings to the Audit & Risk Management Committee at the end of each quarter.

The Audit & Risk Management Committee reviews, deliberates and evaluates the effectiveness and efficiency of the internal control systems in the organization which are designed to manage and mitigate rather than eliminate risks in achieving the company's corporate objectives, safeguarding the company's assets as well as investors interests.

### ENSURE TIMELY AND HIGH QUALITY DISCLOSURE

The Board monitors all price sensitive information potentially required to be released to Bursa Malaysia and makes material announcements to Bursa Malaysia in a timely manner as required. In line with best practices, the Board strives to disclose price sensitive information to the public as soon as practicable through Bursa, the media and the company's website.

Price sensitive information is defined as any information that on becoming generally available would tend to have a material effect on the market price of the Company's listed securities. The Company Secretary is responsible to compile such information for the approval of the Board soonest possible and release such information to the market as stipulated by Bursa Malaysia.

Apart from the provisions relating to the "closed period" for dealing in the company's shares, the directors and senior management privy to price sensitive information are prohibited from dealing in the shares of the company until such information is publicly available.

### STRENGTHEN RELATIONSHIP BETWEEN COMPANY AND SHAREHOLDERS

The Annual General Meeting is the principal forum for dialogue and interaction with the shareholders of the company. The Board is committed to provide shareholders with comprehensive timely information about the Group's activities and performance to enable investors make informed decisions. Shareholders are encouraged to attend Annual General Meetings and use the opportunity to ask questions on resolutions being proposed during the meeting and on the progress, performance and future prospects of the company. The Chairman and Board members, with the assistance of the external auditors, are responsible to respond and provide explanations on matters raised.

Information on the Group's activities is provided in the Annual Report and Financial Statements which are despatched to shareholders. The Company also encourages shareholders and investors to access online the company's Annual report and up to date announcements, which are made available at the Bursa Malaysia website and the company's own website at [www.ilb.com.my](http://www.ilb.com.my)

# STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

## BOARD RESPONSIBILITY

The Board of Directors is responsible for the adequacy and effectiveness of the Group's Risk Management and Internal Control System. The Board recognises the importance of good corporate governance and is committed to maintaining a sound system of internal controls and risk management. This includes the establishment of an appropriate control environment and risk management framework, processes and structures, and continually reviewing the adequacy and integrity of the said systems to safeguard shareholders' investment and the Group's assets. The Board is pleased to provide the following statement, which outlines the nature and scope of risk management and internal controls of the Group during the year.

The system of risk management and internal controls covers risk management, finance, operations, management information systems and compliance with relevant laws, both local and foreign, all other regulations, policies and procedures.

Whilst acknowledging its responsibilities, the Board is aware of the limitations that are inherent in any system of internal control and risk management, such system being designed to manage, rather than eliminate, the risk that may impede the achievement of the Group's business objectives. Accordingly, it can only provide a reasonable combination of preventive, detective and corrective measures but not absolute assurance against material misstatement or losses, fraud or breaches of laws or regulations.

The Group's risk management and internal control framework has been in place for identifying, evaluating and managing significant risks faced or potentially to be encountered by the Group. The process is regularly reviewed by the Board.

The implementation of the risk management and internal control system within the Group inclusive of design, operation, identification, assessment, mitigation and control of risks, are operated with the assistance of the Management throughout the period. The Board has received assurance from the Chief Executive Officer and the Chief Financial Officer that the Group's risk management and internal control system is operating adequately and effectively in all material aspects.

The key features of the internal control systems which are operated with the assistance of the Management are described as below :-

### Risk Management Framework

The Group has in place processes for the identification, evaluation, reporting, treatment, monitoring and review of the major strategic, business and operation risks within the Group, covering both wholly and partially owned subsidiaries (excluding associates and jointly controlled entities). Both the Audit & Risk Management Committee ("ARMC") and Board of Directors review the risk management and internal controls on a regular basis.

The following material associate has not been dealt with as part of the Group for the purposes of the Statement on Risk Management & Internal Control :-

- Hengyang Petrochemical Logistics Limited (Associate)

For the period under review, the ARMC is assisted by the Chief Risk Officer. The framework is continually monitored to ensure it is responsive to the changes in the Group's Corporate Structure.

# STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

---

## Internal Control Structure

The Group has an established internal control structure and is committed to maintaining the structure to ensure effective control over the Group's business operations and to safeguard the value and security of the Group's assets. There is a clearly defined operating structure with lines of responsibilities and delegation of authority in place to assist the Board to maintain a proper control environment, supported by the following activities:-

- **Organisation Structure**

The organization structure clearly outlines the authority, responsibility, segregation of duties and accountability to ensure the Group achieves its strategies and operational objectives.

- **Group Policies and Procedures**

The Group has procedures and controls to ensure the reporting of complete and accurate financial information. These procedures and controls include obtaining authority for major transactions and ensuring compliance with laws and regulations that have significant financial implications. Procedures are also in place to ensure that assets are subject to proper physical controls and compliance with safety requirements.

- **Management Information System**

The Board recognizes the importance of information and communication technologies to promote effective and efficient business operations & timely and accurate communications to enhance the business interests of the Group.

- **Quarterly Budget versus Actual Financial Reporting**

There is a comprehensive budgeting system with an annual budget approved by the respective Boards of the operating subsidiaries at the commencement of the financial year. Management accounts containing actual operation results versus forecasted results for the year are prepared and reported to the Board on a quarterly basis. These reports are reviewed and explanations obtained for variances before the Quarterly Results are approved for release to Bursa Malaysia for announcement to the public.

- **Audit & Risk Management Committee (ARMC)**

The ARMC comprises non-executive directors, with a majority being independent directors, and provides direction and oversight over the internal audit function to enhance its independence. The Committee meets each quarter to review internal audit findings, discuss risk management issues and ensures that weaknesses and issues highlighted are appropriately addressed by the management.

- **Internal Audit**

An annual internal audit plan is reviewed and approved by the ARMC at the beginning of the year. The objectives of the said audit plan are to ensure, through regular internal audit reviews, that the Group's policies and procedures are being complied with in order to provide assurance on the adequacy and effectiveness of the Group's system of internal controls. Follow-up reviews and deliberation of internal audit reports are carried out to ensure that appropriate action is taken to address internal control weaknesses highlighted.

The Chief Risk Officer has an independent status in the Group and reports functionally to the Board through the ARMC. Where necessary, internal audit assignments are outsourced to facilitate the transfer of internal audit knowledge and coverage of areas where technical skills and resources are not available internally.

## STATEMENT ON RISK MANAGEMENT AND INTERNAL CONTROL

---

- **Operational Monitoring and Controls**

The monitoring and control procedures are regularly reviewed by the Management responsible for reporting to the Board. These are supplemented by independent reviews undertaken by the internal audit department on the controls in operation in each individual business and independently reported to the ARMC. Regular reports are produced for the Board to assess the impact of control issues and appropriate actions recommended.

- **Control Environment**

The Board believes that a sound internal control system reduces, but cannot eliminate, the possibility of poor judgement in decision making, human error, control processes being deliberately circumvented by employees and others, management overriding controls and the occurrence of unforeseeable circumstances.

### **Conclusion**

During the year, the Audit & Risk Management Department has performed its duties in accordance with its audit plan. Some weaknesses in internal control were detected. After due inquiry and based on the subsequent rectification actions and assurances provided, the Board is satisfied that all necessary actions have been taken. The weaknesses highlighted have not resulted in any material losses, contingencies or uncertainties that would require disclosure in the Group's Annual Report.

This statement is made in accordance with the resolution of the Board of Directors dated 25 February 2015.

## STATEMENT OF DIRECTORS' RESPONSIBILITIES IN RESPECT OF THE AUDITED FINANCIAL STATEMENTS

---

The Directors are required by the Companies Act, 1965 ("the Act") to prepare financial statements for each financial year which give a true and fair view of the state of affairs of the Group and the Company at the end of the financial year and the results and cash flow of the Group and of the Company for the financial year. As required by the Act and the Main Market Listing Requirements of the Bursa Malaysia Securities Berhad, the financial statements have been prepared in accordance with the applicable approved accounting standards in Malaysia and the provisions of the Act.

In preparing those financial statements, the Company's Directors have:

- adopted suitable accounting policies and applied them consistently;
- made judgements and estimates that are prudent and reasonable;
- ensured applicable approved accounting standards have been followed.

The Directors are responsible for keeping proper accounting records which disclose with reasonable accuracy at any time the financial position of the Company and to enable them to ensure that the financial statements comply with the Companies Act, 1965. The Directors are also responsible for the assets of the Company and hence, for taking reasonable steps for the prevention and detection of fraud and other irregularities.

## RESERVES AND PROVISIONS

There were no material transfers to or from reserves or provisions during the financial year.

## DIRECTORS' REPORT

---

### **BAD AND DOUBTFUL DEBTS**

Before the statements of profit or loss and other comprehensive income and statements of financial position of the Group and of the Company were made out, the directors took reasonable steps to ascertain that action had been taken in relation to the writing off of bad debts and the making of provision for doubtful debts and have satisfied themselves that there were no known bad debts and that no provision for doubtful debts was required.

At the date of this report, the directors are not aware of any circumstances which would render it necessary to write off any bad debts or to make any provision for doubtful debts in the financial statements of the Group and of the Company.

### **CURRENT ASSETS**

Before the statements of profit or loss and other comprehensive income and statements of financial position of the Group and of the Company were made out, the directors took reasonable steps to ensure that any current assets which were unlikely to realise in the ordinary course of business including their values as shown in the accounting records of the Group and of the Company have been written down to an amount which they might be expected so to realise.

At the date of this report, the directors are not aware of any circumstances which would render the values attributed to the current assets in the financial statements of the Group and of the Company misleading.

### **VALUATION METHODS**

At the date of this report, the directors are not aware of any circumstances which have arisen which render adherence to the existing method of valuation of assets or liabilities of the Group and of the Company misleading or inappropriate.

### **CONTINGENT AND OTHER LIABILITIES**

At the date of this report, there does not exist:-

- (i) any charge on the assets of the Group or of the Company which has arisen since the end of the financial year which secures the liabilities of any other person; or
- (ii) any contingent liabilities in respect of the Group or of the Company which has arisen since the end of the financial year.

No contingent liabilities or other liabilities of the Group and of the Company has become enforceable, or is likely to become enforceable within the period of twelve months after the end of the financial year which, in the opinion of the directors, will or may affect the ability of the Group or of the Company to meet their obligations as and when they fall due.

### **CHANGE OF CIRCUMSTANCES**

At the date of this report, the directors are not aware of any circumstances, not otherwise dealt with in this report or the financial statements of the Group and of the Company which would render any amount stated in the financial statements misleading.

# DIRECTORS' REPORT

---

## ITEMS OF AN UNUSUAL NATURE

In the opinion of the directors:-

- (i) the results of the operations of the Group and of the Company for the financial year were not substantially affected by any item, transaction or event of a material and unusual nature except for the impairment loss of RM41,553,037 recognised on the investment in an associate as disclosed in Note 6 to the financial statements; and
- (ii) there has not arisen in the interval between the end of the financial year and the date of this report any item, transaction or event of a material and unusual nature likely to affect substantially the results of the operations of the Group and of the Company for the financial year in which this report is made.

## ISSUE OF SHARES OR DEBENTURES

During the financial year, no new issues of shares or debentures was made by the Company.

## TREASURY SHARES

# INDEPENDENT AUDITORS' REPORT TO THE MEMBERS OF INTEGRATED LOGISTICS BERHAD

(Incorporated in Malaysia)

---

## Report on the Financial Statements

We have audited the financial statements of Integrated Logistics Berhad, which comprise the statements of financial position as at 31 December 2014 of the Group and of the Company, and the statements of profit or loss and other comprehensive income, statements of changes in equity and statements of cash flows of the Group and of the Company for the financial year then ended, and a summary of significant accounting policies and other explanatory information, as set out on pages 42 to 138.

### *Directors' Responsibility for the Financial Statements*

The directors of the Company are responsible for the preparation of financial statements so as to give a true and fair view in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia. The directors are also responsible for such internal controls as the directors determine are necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

### *Auditors' Responsibility*

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with approved standards on auditing in Malaysia. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on our judgement, including the assessment of risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, we consider internal controls relevant to the Company's preparation of financial statements that give a true and fair view in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's internal controls. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the directors, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

### *Opinion*

In our opinion, the financial statements give a true and fair view of the financial position of the Group and of the Company as at 31 December 2014 and of their financial performance and cash flows for the financial year then ended in accordance with the Malaysian Financial Reporting Standards, International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

## Report on Other Legal and Regulatory Requirements

In accordance with the requirements of the Companies Act, 1965 in Malaysia, we also report the following:-

- a) In our opinion, the accounting and other records and the registers required by the Companies Act, 1965 in Malaysia to be kept by the Company and its subsidiaries of which we have acted as auditors have been properly kept in accordance with the provisions of the Companies Act, 1965 in Malaysia.
- b) We have considered the financial statements and the auditors' reports of all the subsidiaries of which we have not acted as auditors, which are indicated in Note 13 to the financial statements.
- c) We are satisfied that the financial statements of the subsidiaries that have been consolidated with the Company's financial statements are in form and content appropriate and proper for the purposes of the preparation of the financial statements of the Group and we have received satisfactory information and explanations required by us for those purposes.
- d) The auditors' reports on the financial statements of the subsidiaries did not contain any qualification or any adverse comment made under Section 174(3) of the Companies Act, 1965 in Malaysia.

## Other Reporting Responsibilities

The supplementary information set out on page 139 is disclosed to meet the requirement of Bursa Malaysia Securities Berhad and is not part of the financial statements. The directors are responsible for the preparation of the supplementary information in accordance with the Guidance on Special Matter No.1, Determination of Realised and Unrealised Profits or Losses in the Context of Disclosure Pursuant to Bursa Malaysia Securities Berhad Listing Requirements, as issued by the Malaysian Institute of Accountants ("MIA Guidance") and the directive of Bursa Malaysia Securities Berhad. In our opinion, the supplementary information is prepared, in all material respects, in accordance with the MIA Guidance and the directive of Bursa Malaysia Securities Berhad.

## Other Matters

This report is made solely to the members of the Company, as a body, in accordance with Section 174 of the Companies Act, 1965 in Malaysia and for no other purpose. We do not assume responsibility to any other person for the contents of this report.

The Company is a public limited liability company, incorporated and domiciled in Malaysia, and is listed on the Main Market of Bursa Malaysia Securities Berhad.

The registered office is located at B-25-2, Block B, Jaya One, No. 72A, Jalan Universiti, 46200 Petaling Jaya, Selangor Darul Ehsan and the principal place of business is located at Indera Subang Condominium, Ground Floor, Club House, Jalan USJ 6/2L, 47610 UEP Subang Jaya, Selangor Darul Ehsan.

The principal activity of the Company is investment holding. The principal activities of the subsidiaries are disclosed in Note 13. There have been no significant changes in the nature of these activities during the financial year.

The financial statements were authorised for issue in accordance with a resolution by the Board of Directors dated 20 March 2015.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### 2.1 Basis of preparation

The financial statements of the Group and of the Company have been prepared in accordance with the Malaysian Financial Reporting Standards ("MFRSs"), International Financial Reporting Standards and the requirements of the Companies Act, 1965 in Malaysia.

The financial statements of the Group and of the Company have been prepared under the historical cost basis, except as otherwise disclosed in the significant accounting policies.

The preparation of financial statements in conformity with MFRSs requires the use of certain critical accounting estimates and assumptions that affect the reported amounts of assets and liabilities and disclosures of contingent assets and liabilities at the date of the financial statements, and the reported amounts of the revenue and expenses during the reported period. It also requires directors to exercise their judgement in the process of applying the Group's and the Company's accounting policies. Although these estimates and judgement are based on the directors' best knowledge of current events and actions, actual results may differ.

The areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 3.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.2 New MFRSs, Amendments/Improvements to MFRSs and New IC Interpretations ("IC Int")

#### (a) Adoption of Amendments/Improvements to MFRSs and New IC Int

The Group and the Company had adopted the following amendments/improvements to MFRSs and new IC Int that are mandatory for the current financial year:-

##### Amendments/Improvements to MFRSs

|          |  |
|----------|--|
| MFRS 10  | Consolidated Financial Statements                  |
| MFRS 12  | Disclosure of Interests in Other Entities          |
| MFRS 127 | Separate Financial Statements                      |
| MFRS 132 | Financial Instruments: Presentation                |
| MFRS 136 | Impairment of Assets                               |
| MFRS 139 | Financial Instruments: Recognition and Measurement |

##### New IC Int

IC Int 21 Levies

The adoption of the above amendments/improvements to MFRSs and new IC Int do not have any effect on the financial statements of the Group and of the Company except for those as discussed below.

#### ***Amendments to MFRS 10 Consolidated Financial Statements, MFRS 12 Disclosure of Interests in Other Entities and MFRS 127 Separate Financial Statements***

Amendments to MFRS 10 introduce an exception to the principle that all subsidiaries shall be consolidated. The amendments define an investment entity and require a parent that is an investment entity to measure its investment in particular subsidiaries at fair value through profit or loss in accordance with MFRS 139 Financial Instruments: Recognition and Measurement instead of consolidating those subsidiaries in its consolidated financial statements. Consequently, new disclosure requirements related to investment entities are introduced in amendments to MFRS 12 and MFRS 127.

In addition, amendments to MFRS 127 also clarify that if a parent is required, in accordance with paragraph 31 of MFRS 10, to measure its investment in a subsidiary at fair value through profit or loss in accordance with MFRS 139, it shall also account for its investment in that subsidiary in the same way in its separate financial statements.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.2 New MFRSs, Amendments/Improvements to MFRSs and New IC Interpretations ("IC Int") (cont'd)

#### (a) Adoption of Amendments/Improvements to MFRSs and New IC Int (cont'd)

##### ***Amendments to MFRS 132 Financial Instruments: Presentation***

Amendments to MFRS 132 do not change the current offsetting model in MFRS 132. The amendments clarify the meaning of 'currently has a legally enforceable right of set-off', that the right of set-off must be available today (not contingent on a future event) and legally enforceable for all counterparties in the normal course of business. The amendments clarify that some gross settlement mechanisms with features that are effectively equivalent to net settlement will satisfy the MFRS 132 offsetting criteria. These amendments only impact the presentation in the financial statements but has no impact on the financial results and positions of the Group and of the Company.

##### ***Amendments to MFRS 136 Impairment of Assets***

Amendments to MFRS 136 clarify that disclosure of the recoverable amount (based on fair value less costs of disposal) of an asset or cash generating unit is required to be disclosed only when an impairment loss is recognised or reversed. In addition, there are new disclosure requirements about fair value measurement when impairment or reversal of impairment is recognised.

##### ***Amendments to MFRS 139 Financial Instruments: Recognition and Measurement***

Amendments to MFRS 139 provide relief from discontinuing hedge accounting in a situation where a derivative, which has been designated as a hedging instrument, is novated to effect clearing with a central counterparty as a result of laws or regulation, if specific conditions are met. As a result of the amendments, continuation of hedge accounting is permitted if as a consequence of laws or regulations, the parties to hedging instrument agree to have one or more clearing counterparties replace their original counterparty and the changes to the terms arising from the novation are consistent with the terms that would have existed if the novated derivative were originally cleared with the central counterparty.

##### ***IC Int 21 Levies***

IC Int 21 addresses the accounting for a liability to pay a government levy (other than income taxes and fine or other penalties that imposed for breaches of the legislation) if that liability is within the scope of MFRS 137 Provisions, Contingent Liabilities and Contingent Assets. This interpretation clarifies that an entity recognises a liability for a levy when the activity that triggers the payment of the levy, as identified by the relevant legislation, occurs. It also clarifies that a levy liability is recognised progressively only if the activity that triggers payment occurs over a period of time, in accordance with the relevant legislation. For a levy that is triggered upon reaching a minimum threshold, the interpretation clarifies that no liability should be recognised before the specific minimum threshold is reached. The adoption of IC Int 21 has no significant impact to the financial statements of the Group and of the Company.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.2 New MFRSs, Amendments/Improvements to MFRSs and New IC Interpretations ("IC Int") (cont'd)

- (b) **New MFRSs and Amendments/Improvements to MFRSs that are issued, but not yet effective and have not been early adopted (cont'd)**

#### ***MFRS 9 Financial Instruments***

MFRS 9 introduces a package of improvements which includes a classification and measurement model, a single forward-looking 'expected loss' impairment model and a substantially-reformed approach to hedge accounting.

#### Classification and measurement

MFRS 9 introduces an approach for classification of financial assets which is driven by cash flow characteristics and the business model in which an asset is held. The new model also results in a single impairment model being applied to all financial instruments.

In essence, if a financial asset is a simple debt instrument and the objective of the entity's business model within which it is held is to collect its contractual cash flows, the financial asset is measured at amortised cost. In contrast, if that asset is held in a business model the objective of which is achieved by both collecting contractual cash flows and selling financial assets, then the financial asset is measured at fair value in the statement of financial position, and amortised cost information is provided through profit or loss. If the business model is neither of these, then fair value information is increasingly important, so it is provided both in the profit or loss and in the statement of financial position.

#### Impairment

MFRS 9 introduces a new, expected-loss impairment model that will require more timely recognition of expected credit losses. Specifically, this Standard requires entities to account for expected credit losses from when financial instruments are first recognised and to recognise full lifetime expected losses on a more timely basis. The model requires an entity to recognise expected credit losses at all times and to update the amount of expected credit losses recognised at each reporting date to reflect changes in the credit risk of financial instruments. This model eliminates the threshold for the recognition of expected credit losses, so that it is no longer necessary for a trigger event to have occurred before credit losses are recognised.

### 2.2 New MFRSs, Amendments/Improvements to MFRSs and New IC Interpretations ("IC Int") (cont'd)

- (b) **New MFRSs and Amendments/Improvements to MFRSs that are issued, but not yet effective and have not been early adopted** (cont'd)

#### ***MFRS 9 Financial Instruments*** (cont'd)

##### Hedge accounting

MFRS 9 introduces a substantially-reformed model for hedge accounting, with enhanced disclosures about risk management activity. The new model represents a significant overhaul of hedge accounting that aligns the accounting treatment with risk management activities, enabling entities to better reflect these activities in their financial statements. In addition, as a result of these changes, users of the financial statements will be provided with better information about risk management and the effect of hedge accounting on the financial statements.

#### ***MFRS 15 Revenue from Contracts with Customers***

The core principle of MFRS 15 is that an entity recognises revenue to depict the transfer of promised goods or services to customers in an amount that reflects the consideration to which the entity expects to be entitled in exchange for those goods or services. An entity recognises revenue in accordance with the core principle by applying the following steps:

- Identify the contracts with a customer.
- Identify the performance obligation in the contract.
- Determine the transaction price.
- Allocate the transaction price to the performance obligations in the contract.
- Recognise revenue when (or as) the entity satisfies a performance obligation.

MFRS 15 also includes new disclosures that would result in an entity providing users of financial statements about the nature, amount, timing and uncertainty of revenue and cash flows from contracts with customers.

### 2.2 New MFRSs, Amendments/Improvements to MFRSs and New IC Interpretations ("IC Int") (cont'd)

- (b) **New MFRSs and Amendments/Improvements to MFRSs that are issued, but not yet effective and have not been early adopted**

#### ***MFRS 15 Revenue from Contracts with Customers (cont'd)***

The following MFRSs and IC Interpretations will be withdrawn on the application of MFRS 15:

|                       |  |
|-----------------------|--|
| MFRS 111              | Construction Contracts                                       |
| MFRS 118              | Revenue  |
| IC Interpretation 13  | Customer Loyalty Programmes                                  |
| IC Interpretation 15  | Agreements for the Construction of Real Estate               |
| IC Interpretation 18  | Transfers of Assets from Customers                           |
| IC Interpretation 131 | Revenue – Barter Transactions Involving Advertising Services |

#### ***Amendment to MFRS 2 Share-based Payment***

Amendment to MFRS 2 clarifies the definition of 'vesting conditions' by separately defining 'performance condition' and 'service condition' to ensure consistent classification of conditions attached to a share-based payment.

#### ***Amendments to MFRS 3 Business Combinations***

Amendments to MFRS 3 clarify that when contingent consideration meets the definition of financial instrument, its classification as a liability or equity is determined by reference to MFRS 132 Financial Instruments: Presentation. It also clarifies that contingent consideration that is classified as an asset or a liability shall be subsequently measured at fair value at each reporting date and changes in fair value shall be recognised in profit or loss.

In addition, Amendments to MFRS 3 clarify that MFRS 3 excludes from its scope the accounting for the formation of all types of joint arrangements (as defined in MFRS 11 Joint Arrangements) in the financial statements of the joint arrangement itself.

#### ***Amendments to MFRS 7 Financial Instruments: Disclosures***

Amendments to MFRS 7 provide additional guidance to clarify whether servicing contracts constitute continuing involvement for the purposes of applying the disclosure requirements of MFRS 7.

The Amendments also clarify the applicability of Disclosure – Offsetting Financial Assets and Financial Liabilities (Amendments to MFRS 7) to condensed interim financial statements.

#### ***Amendment to MFRS 8 Operating Segments***

Amendment to MFRS 8 requires an entity to disclose the judgements made by management in applying the aggregation criteria to operating segments. This includes a brief description of the operating segments that have been aggregated and the economic indicators that have been assessed in determining that the aggregated operating segments share similar economic characteristics.

The Amendment also clarifies that an entity shall provide reconciliations of the total reportable segments' assets to the entity's assets if the segment assets are reported regularly to the chief operating decision maker.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.2 New MFRSs, Amendments/Improvements to MFRSs and New IC Interpretations ("IC Int") (cont'd)

#### (b) New MFRSs and Amendments/Improvements to MFRSs that are issued, but not yet effective and have not been early adopted (cont'd)

##### ***Amendments to MFRS 11 Joint Arrangements***

Amendments to MFRS 11 clarify that when an entity acquires an interest in a joint operation in which the activity of the joint operation constitutes a business, as defined in MFRS 3 Business Combinations, it shall apply the relevant principles on business combinations accounting in MFRS 3, and other MFRSs, that do not conflict with MFRS 11. Some of the impact arising may be the recognition of goodwill, recognition of deferred tax assets/liabilities and recognition of acquisition-related costs as expenses. The Amendments do not apply to joint operations under common control and also clarify that previously held interests in a joint operation are not re-measured if the joint operator retains joint control.

##### ***Amendment to MFRS 13 Fair Value Measurement***

Amendment to MFRS 13 relates to the IASB's Basis for Conclusions which is not an integral part of the Standard. The Basis for Conclusions clarifies that when IASB issued IFRS 13, it did not remove the practical ability to measure short-term receivables and payables with no stated interest rate at invoice amounts without discounting, if the effect of discounting is immaterial.

The Amendment also clarifies that the scope of the portfolio exception of MFRS 13 includes all contracts accounted for within the scope of MFRS 139 Financial Instruments: Recognition and Measurement or MFRS 9 Financial Instruments, regardless of whether they meet the definition of financial assets or financial liabilities as defined in MFRS 132 Financial Instruments: Presentation.

##### ***Amendments to MFRS 101 Presentation of Financial Statements***

Amendments to MFRS 101 improves the effectiveness of disclosures. The Amendments clarifies guidance on materiality and aggregation, the presentation of subtotals, the structure of financial statements and the disclosure of accounting policies.

##### ***Amendments to MFRS 116 Property, Plant and Equipment***

Amendments to MFRS 116 clarify the accounting for the accumulated depreciation/amortisation when an asset is revalued. It clarifies that:

- the gross carrying amount is adjusted in a manner that is consistent with the revaluation of the carrying amount of the asset; and
- the accumulated depreciation / amortisation is calculated as the difference between the gross carrying amount and the carrying amount of the asset after taking into account accumulated impairment losses.

Amendments to MFRS 116 prohibit revenue-based depreciation because revenue does not reflect the way in which an item of property, plant and equipment is used or consumed.

- (b) **New MFRSs and Amendments/Improvements to MFRSs that are issued, but not yet effective and have not been early adopted (cont'd)**

#### ***Amendment to MFRS 124 Related Party Disclosures***

Amendment to MFRS 124 clarifies that an entity providing key management personnel services to the reporting entity or to the parent of the reporting entity is a related party of the reporting entity.

#### ***Amendments to MFRS 127 Separate Financial Statements***

Amendments to MFRS 127 allow a parent and investors to use the equity method in its separate financial statements to account for investments in subsidiaries, joint ventures and associates, in addition to the existing options.

#### ***Amendments to MFRS 10 Consolidated Financial Statements and MFRS 128 Investments in Associates and Joint Ventures***

These amendments address an acknowledged inconsistency between the requirements in MFRS 10 and those in MFRS 128, in dealing with the sale or contribution of assets between an investor and its associate or joint venture.

The main consequence of the Amendments is that a full gain or loss is recognised when a transaction involves a business (whether it is housed in a subsidiary or not), as defined in MFRS 3 Business Combinations. A partial gain or loss is recognised when a transaction involves assets that do not constitute a business, even if these assets are housed in a subsidiary.

### 2.3 Basis of consolidation and Subsidiaries

The consolidated financial statements incorporate the financial statements of the Company and all its subsidiaries which are disclosed in Note 13 made up to the end of the financial year. The financial statements of the Company and its subsidiaries are all drawn up to the same reporting date.

Subsidiaries are all entities (including structured entities) over which the Group has control. The Group controls an entity when the Group is exposed to or has rights to, variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity. Specifically, the Group controls an investee if and only if the Group has:-

- (a) Power over the investee;
- (b) Exposure, or rights, to variable returns from its involvement with the investee; and
- (c) The ability to use its power over the investee to affect its returns.

If the Group has less than a majority of the voting or similar rights of an investee, the Group considers all relevant facts and circumstances in assessing whether it has power over an investee, including:-

- (a) The contractual arrangement with the other vote holders of the investee;
- (b) Rights arising from other contractual agreements; and
- (c) The voting rights of the Group and potential voting rights.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.3 Basis of consolidation and Subsidiaries (cont'd)

Subsidiaries are fully consolidated from the date on which control is transferred to the Group. They are deconsolidated from the date that control ceases. The assets, liabilities and contingent liabilities assumed from a subsidiary are measured at their fair values at the date of acquisition and these values are reflected in the consolidated financial statements. Uniform accounting policies are adopted in the consolidated financial statements for like transactions and events in similar circumstances.

In the Company's separate financial statements, investments in subsidiaries are accounted for at cost less impairment losses, unless the investments are classified as held for sale (or included in a disposal group that is classified as held for sale). Acquisition related costs are recognised as expenses in the period in which the costs are incurred. On disposal of such investments, the difference between net disposal proceeds and their carrying amounts is recognised in profit or loss.

All intra-group balances, transactions and resulting unrealised profits and losses (unless cost cannot be recovered) are eliminated on consolidation and the consolidated financial statements reflect external transactions only.

For each business combination, the Group elects whether to measure the non-controlling interests in the acquiree at the acquisition date either at fair value or at the proportionate share of the acquiree's identifiable net assets.

Any excess of the cost of the acquisition over the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities represents goodwill.

Any excess of the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities over the cost of acquisition is recognised immediately in profit or loss.

Changes in the parent's ownership interest in a subsidiary that do not result in a loss of control are accounted for as equity transactions. In such circumstances, the carrying amounts of the controlling and non-controlling interests are adjusted to reflect the changes in their relative interests in the subsidiary. Any difference between the amount by which the non-controlling interest is adjusted and the fair value of the consideration paid or received is recognised directly in equity and attributed to owners of the Company.

The Group has applied the revised MFRS 127 prospectively on 1 January 2011 in accordance with the transitional provisions. Accordingly, transactions with non-controlling interests prior to the respective effective date have not been restated to comply with the Standard.

Business combination involving entities under common control are accounted for by applying the pooling-of-interest method. The assets and liabilities of the combining entities are reflected at their carrying amounts reported in the consolidated financial statements of the controlling holding company. Any difference between the consideration paid and the share capital of the acquired entity is reflected within equity as reverse acquisition reserve. The statement of profit or loss and other comprehensive income reflects the results of the combining entities for the full year, irrespective of when the combination takes place. Comparatives are presented as if the entities had always been combined.

# NOTES TO THE FINANCIAL STATEMENTS

– 31 DECEMBER 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.4 Transactions with non-controlling interests

Non-controlling interests represents the equity in subsidiaries not attributable, directly or indirectly, to owners of the Company, and is presented separately in the consolidated statement of profit or loss and other comprehensive income and within equity in the consolidated statement of financial position, separately from equity attributable to owners of the Company. Profit or loss and each component of other comprehensive income are attributable to the owners of the parent and to the non-controlling interests. Total comprehensive income is attributed to non-controlling interests even if this results in the non-controlling interests having a deficit balance.

### 2.5 Foreign currency

#### (a) Functional and presentation currency

The individual financial statements of each entity in the Group are measured using the currency of the primary economic environment in which the entity operates ("the functional currency"). The consolidated financial statements are presented in Ringgit Malaysia ("RM"), which is also the Company's functional currency.

#### (b) Foreign currency transactions

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded in Ringgit Malaysia using the exchange rates prevailing at the dates of the transactions. Monetary items denominated in foreign currencies at the reporting date are translated to the functional currencies at the exchange rates on the reporting date. Non-monetary items denominated in foreign currencies are not retranslated at the reporting date except for those that are measured at fair value are retranslated to the functional currency at the exchange rate at the date that the fair value was determined.

Exchange differences arising on the settlement of monetary items, and on the translation of monetary items, are included in profit or loss for the period except for exchange differences arising on monetary items that form part of the Group's net investment in foreign operation.

#### (c) Foreign Operations Denominated in Functional Currencies other than Ringgit Malaysia

The results and financial position of foreign operations that have a functional currency different from the presentation currency ("RM") of the consolidated financial statements are translated into RM as follows:-

- (i) Assets and liabilities for each reporting date presented are translated at the closing rate prevailing at the reporting date;
- (ii) Income and expenses are translated at average exchange rates for the year, which approximates the exchange rates at the dates of the transactions; and
- (iii) All resulting exchange differences are taken to other comprehensive income.

Exchange differences arising on monetary items that form part of the Group's net investment in foreign operation are initially taken directly to the foreign currency translation reserve within equity until the disposal of the foreign operations, at which time they are recognised in profit or loss. Exchange differences arising on monetary items that form part of the Group's net investment in foreign operations are recognised in profit or loss in the Company's separate financial statements or the individual financial statements of the foreign operation, as appropriate.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.5 Foreign currency (cont'd)

#### (c) Foreign Operations Denominated in Functional Currencies other than Ringgit Malaysia (cont'd)

Exchange differences arising on the translation of non-monetary items carried at fair value are included in profit or loss for the period except for the differences arising on the translation of non-monetary items in respect of which gains and losses are recognised directly in equity. Exchange differences arising from such non-monetary items are also recognised directly in equity.

Goodwill and fair value adjustments arising on the acquisition of foreign operations on or after 1 January 2006 are treated as assets and liabilities of the foreign operations and are recorded in the functional currency of the foreign operations and translated at the closing rate at the reporting date. Goodwill and fair value adjustments which arose on the acquisition of foreign subsidiaries before 1 January 2006 are deemed to be assets and liabilities of the parent company and are recorded in RM at the rate prevailing at the date of acquisition.

Upon disposal of a foreign subsidiary, the cumulative amount of translation differences at the date of disposal of the subsidiary is taken to the consolidated profit or loss.

### 2.6 Revenue

Revenue is recognised to the extent that it is probable that the economic benefits will flow to the Group and the revenue can be reliably measured. Revenue is measured at the fair value of consideration received or receivable.

Commissions and revenue from services are recognised when services are rendered.

Rental revenue is recognised on an accrual basis.

Dividends from subsidiaries, associates and other investments are recognised when the right to receive payment is established.

Interest revenue is recognised on a time proportion basis that reflects the effective yield of the asset.

### 2.7 Employee benefits

#### (a) Short term employee benefits

Wages, salaries, bonuses and social security contributions are recognised as expenses in the period in which the associated services are rendered by employees of the Group. Short term accumulating compensated absences such as paid annual leave are recognised when services are rendered by employees that increase their entitlement to future compensated absences. Short term non-accumulating compensated absences such as sick leave are recognised when the absences occur.

#### (b) Defined contribution plans

The Group participates in the national pension schemes as defined by the laws of the countries in which it has operations. The Malaysian companies in the Group make contributions to the Employee Provident Fund in Malaysia, a defined contribution pension scheme. Contributions to defined contribution pension schemes are recognised as an expense in the period in which the related service is performed.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.8 Borrowing costs

Borrowing costs are capitalised as part of a qualifying assets if they are directly attributable to the acquisition, construction or production of that asset. Capitalisation of borrowing costs commences when the activities to prepare the assets for its intended use or sales are in progress and the expenditures and borrowing costs are incurred. Borrowing costs are capitalised until the assets are substantially completed for their intended use or sale.

All other borrowings costs are recognised in profit or loss in the period in which they are incurred. Borrowing costs consist of interest and other costs that the Group and the Company incurred in connection with the borrowing of funds.

### 2.9 Tax expense

Tax expense in profit or loss represents the aggregate amount of current and deferred tax. Current tax is the expected amount payable in respect of taxable income for the year, using tax rates enacted or substantially enacted by the reporting date, and any adjustments recognised for prior years' tax. When an item is recognised outside profit or loss, the related tax effect is recognised either in other comprehensive income or directly in equity.

Deferred tax is recognised using the liability method, on all temporary differences between the tax base of assets and liabilities and their carrying amounts in the financial statements. Deferred tax is not recognised if the temporary difference arises from goodwill or from the initial recognition of an asset or liability in a transaction, which is not a business combination and at the time of the transaction, affects neither accounting nor taxable profit or loss. Deferred tax is measured at the tax rates that are expected to apply in the period in which the assets are realised or the liabilities are settled, based on tax rates and tax laws that have been enacted or substantially enacted by the reporting date.

Deferred tax assets are recognised only to the extent that there are sufficient taxable temporary differences relating to the same taxable entity and the same taxation authority to offset or when it is probable that future taxable profits will be available against which the assets can be utilised.

Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realised. Unrecognised deferred tax assets are reassessed at each reporting date and are recognised to the extent that it has become probable that future taxable profit will be available for the assets to be utilised.

Deferred tax assets relating to items recognised outside of profit or loss is recognised outside of profit or loss. Deferred tax items are recognised in correlation to the underlying transactions either in other comprehensive income or directly in equity and deferred tax arising from business combination is adjusted against goodwill on acquisition or the amount of any excess of the acquirer's interest in the net fair value of the acquiree's identifiable assets, liabilities and contingent liabilities over the acquisition cost.

### 2.10 Discontinued operations

A discontinued operation is a component of the Group's business that represents a separate major line of business or geographical area of operations that has been disposed or is held for sale or distribution, or is a subsidiary acquired exclusively with a view to resale. Classification as a discontinued operation occurs upon disposal or when the operation meets the criteria to be classified as held for sale, if earlier. When an operation is classified as discontinued operation, the comparative statement of profit or loss and other comprehensive income is re-presented as if the operation had been discontinued from the start of the comparative period.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.11 Property, plant and equipment and depreciation

All items of property, plant and equipment are initially recorded at cost. The cost of an item of property, plant and equipment is recognised as an asset of, and only if, it is probable that future economic benefits associated with the item will flow to the Group and the cost of the item can be measured reliably.

Subsequent to initial recognition, plant and equipment and furniture and fixtures are measured at cost less accumulated depreciation and accumulated impairment losses. When significant parts of property, plant and equipment are required to be replaced in intervals, the Group recognises such part as individual assets with specific useful lives and depreciation, respectively. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in profit or loss as incurred. Buildings are measured at valuation less accumulated depreciation on buildings and impairment losses recognised after the date of the revaluation. Valuations are performed with sufficient regularity to ensure that the carrying amount does not differ materially from the valuation of the freehold land and buildings at the reporting date.

Any revaluation surplus is recognised in other comprehensive income and accumulated in equity under the asset revaluation reserve, except to the extent that it reverses a revaluation decrease of the same asset previously recognised in profit or loss, in which case the increase is recognised in profit or loss. A revaluation deficit is recognised in profit or loss, except to the extent that it offsets an existing surplus on the same asset carried in the asset revaluation reserve.

Any accumulated depreciation as at the revaluation date is eliminated against the gross carrying amount of the asset and the net amount is restated to the revalued amount of the asset. The revaluation surplus included in the asset revaluation reserve in respect of an asset is transferred directly to retained earnings on retirement or disposal of the asset.

Depreciation is computed on a straight-line basis over the principal annual rates used for this purpose as follows:-

|  |               |
|--|---------------|
| Warehouse and office buildings               | 2% - 5%       |
| Machinery, equipment, furniture and fittings | 20% - 33 1/3% |
| Motor vehicles                               | 20%           |

Assets under construction included in property, plant and equipment are not depreciated as these assets are not yet available for use.

The carrying values of property, plant and equipment are reviewed for impairment when events or changes in circumstances indicate that the carrying value may not be recoverable. The policy of recognition of impairment losses is in accordance with Note 2.17.

The residual value, useful life and depreciation method are reviewed at each financial year-end, and adjusted prospectively, if appropriate.

An item of property, plant and equipment is derecognised upon disposal or when no future economic benefits are expected from its use or disposal. Any gain or loss on derecognition of the asset is included in the profit or loss in the period the asset is derecognised.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.12 Land use rights

Land use rights are initially measured at cost. Following initial recognition, land use rights are measured at cost less accumulated amortisation and accumulated impairment losses. The land use rights are amortised over their lease terms.

### 2.13 Capital work-in-progress

Capital work-in-progress consists of expenditure incurred on the construction of property, plant and equipment which take a substantial period of time to be ready for their intended use.

Capital work-in-progress is stated at cost during the period of construction. No depreciation is provided on capital work-in-progress and upon completion of the construction, the cost will be transferred to property, plant and equipment.

### 2.14 Associates

An associate is an entity in which the Group exercises influence, but which it does not control, generally accompanying a shareholding of between 20% and 50% of the voting rights, and that is neither a subsidiary nor an interest in a joint venture. Significant influence is the power to participate in the financial and operating policy decisions of the associates but not the power to exercise control over these policies.

Investments in associate are accounted for in the consolidated financial statements using the equity method of accounting. Under the equity method, the investment in associate is carried in the consolidated statement of financial position at cost adjusted for post-acquisition changes in the Group's share of net assets of the associate. The Group's share of the net profit or loss of the associate is recognised in profit or loss. Where there has been a change recognised directly in the equity of the associate, the Group recognises its share of such changes. The Group's investment in associates includes goodwill identified on acquisition.

In applying the equity method, unrealised gains and losses on transactions between the Group and the associate are eliminated to the extent of the Group's interest in the associate. After application of the equity method, the Group determines whether it is necessary to recognise any additional impairment loss with respect to the Group's net investment in the associate. The associate is equity accounted for from the date the Group obtains significant influence until the date the Group ceases to have significant influence over the associate.

When the Group's share of losses in an associate equals or exceeds its interest in the associate, including any long-term interests that, in substance, form part of the Group's net investment in the associate, the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the associate.

When the Group ceases to have significant influence over an associate, any retained interest in the former associate at the date when significant influence is lost is measured at fair value and this amount is regarded as the initial carrying amount of a financial asset. The difference between the fair value of any retained interest plus proceeds from the interest disposed of and the carrying amount of the investment at the date when equity method is discontinued is recognised in the profit or loss.

When the interest of the Group in an associate decreases but does not result in a loss of significant influence, any retained interest is not re-measured. Any gain or loss arising from the decrease in interest is recognised in profit or loss. Any gains or losses previously recognised in other comprehensive income are also reclassified proportionately to the profit or loss if that gain or loss would be required to be reclassified to profit or loss on the disposal of the related assets or liabilities.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.15 Goodwill

Goodwill acquired in a business combination represents the difference between purchase consideration and the Group's interest in the net fair value of the identifiable assets, liabilities and contingent liabilities of the subsidiaries at the date of acquisition.

Goodwill is allocated to cash generating units and is stated at cost less accumulated impairment losses, if any. Impairment test is performed annually. Goodwill is also tested for impairment when any indication of impairment exists. Impairment losses recognised are not reversed in subsequent periods.

Upon the disposal of an interest in a subsidiary, the related goodwill will be included in the computation of gain or loss on disposal of the interest in the subsidiary in profit or loss.

### 2.16 Joint arrangements

The Group has applied MFRS 11 to all joint arrangements as of 1 January 2013. Under MFRS 11 investments in joint arrangements are classified as either joint operations or joint ventures depending on the contractual rights and obligations of each investor. The Group has assessed the nature of joint arrangements and determined them to be joint ventures. Joint ventures are accounted for using equity method.

Under the equity method of accounting, interest in joint ventures are initially recognised at cost and adjusted thereafter to recognise the Group's share of the post acquisition profits or losses and movements in other comprehensive income. When the Group's share of losses in a joint venture equals or exceeds its interest in the joint ventures (which includes any long-term interests that, in substance, form part of the Group's net investment in the joint ventures), the Group does not recognise further losses, unless it has incurred obligations or made payments on behalf of the joint ventures.

### 2.17 Impairment of non-financial assets

The carrying amounts of non-financial assets other than inventories and deferred tax assets are reviewed at each reporting date to determine whether there is any indication of impairment. If such an indication exists, the asset's recoverable amount is estimated. The recoverable amount is the higher of fair value less cost to sell and the value in use, which is measured by reference to discounted future cash flows and is determined on an individual asset basis, unless the asset does not generate cash flows that are largely independent of those from other assets. If this is the case, recoverable amount is determined for the cash-generating unit to which the asset belongs to. An impairment loss is recognised whenever the carrying amount of an item of asset exceeds its recoverable amount. An impairment loss is recognised as expense in profit or loss. Impairment losses recognised in respect of cash-generating units are allocated first to reduce the carrying amount of any goodwill allocated to the units and then to reduce the carrying amount of the other assets in the unit (group of units) on a pro-rata basis.

Any subsequent increase in recoverable amount of an asset, other than goodwill, due to a reversal of impairment loss is restricted to the carrying amount that would have been determined (net of accumulated depreciation, where applicable) had no impairment loss been recognised in prior years. The reversal of impairment loss is recognised in profit or loss.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.18 Financial assets

Financial assets are recognised in the statements of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument.

When financial assets are recognised initially, they are measured at fair value, plus, in the case of financial assets not at fair value through profit or loss, directly attributable transaction costs.

The Group and the Company determine the classification of their financial assets at initial recognition, and has categorised the financial assets as loans and receivables and available-for-sale financial assets.

#### (a) Loans and receivables

Financial assets with fixed or determinable payments that are not quoted in an active market are classified as loans and receivables. Loans and receivables comprise trade and other receivables including deposits and cash and cash equivalents.

Subsequent to initial recognition, loans and receivables are measured at amortised cost using the effective interest method. Gains and losses are recognised in profit or loss when the loans and receivables are derecognised or impaired, and through the amortisation process.

Loans and receivables are classified as current assets, except for those having maturity dates later than 12 months after the reporting date which are classified as non-current.

#### (b) Available-for-sale financial assets

Available-for-sale are financial assets that are designated as available for sale or are not classified in financial assets at fair value through profit or loss, held-to-maturity investments and loans and receivables.

After initial recognition, available-for-sale financial assets are measured at fair value. Any gains or losses from changes in fair value of the financial asset are recognised in other comprehensive income, except that impairment losses, foreign exchange gains and losses on monetary instruments and interest calculated using the effective interest method are recognised in profit or loss. The cumulative gain or loss previously recognised in other comprehensive income is reclassified from equity to profit or loss as a reclassification adjustment when the financial asset is derecognised. Interest income calculated using the effective interest method is recognised in profit or loss. Dividends on an available-for-sale equity instrument are recognised in profit or loss when the Group's right to receive payment is established.

Available-for-sale financial assets are classified as non-current assets unless they are expected to be realised within 12 months after the reporting date.

# NOTES TO THE FINANCIAL STATEMENTS

– 31 DECEMBER 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.18 Financial assets (cont'd)

A financial asset is derecognised where the contractual right to receive cash flows from the asset has expired or is transferred to another party without retaining control or substantially all risks and rewards of the assets. On derecognition of a financial asset in its entirety, the difference between the carrying amount and the sum of the consideration received and any cumulative gain or loss that had been recognised in other comprehensive income is recognised in profit or loss.

Regular way purchases or sales are purchases and sales of financial assets that require delivery of assets within the period generally established by regulation or convention in the market place concerned. All regular way purchases and sales of financial assets are recognised or derecognised on the trade date i.e. the date that the Group and the Company commit to purchase or sell the asset.

The effective interest method is a method of calculating the amortised cost of a debt instrument and of allocating interest income over the relevant period. The effective interest rate is the rate that exactly discounts estimated future cash receipts through the expected life of the debt instrument, or where appropriate, a shorter period to the net carrying amount on initial recognition.

### 2.19 Impairment of financial assets

The Group and the Company assess at each reporting date whether there is any objective evidence that a financial asset is impaired.

#### (a) Trade and other receivables and other financial assets carried at amortised cost

To determine whether there is objective evidence that an impairment loss on financial assets has been incurred, the Group and the Company consider factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments. For certain categories of financial assets, such as trade receivables, assets that are assessed not to be impaired individually are subsequently assessed for impairment on a collective basis based on similar risk characteristics. Objective evidence of impairment for a portfolio of receivables could include the Group's and the Company's past experience of collecting payments, an increase in the number of delayed payments in the portfolio past the average credit period and observable changes in national or local economic conditions that correlate with default on receivables.

If any such evidence exists, the amount of impairment loss is measured as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the financial asset's original effective interest rate. The impairment loss is recognised in profit or loss.

The carrying amount of the financial asset is reduced by the impairment loss directly for all financial assets with the exception of trade receivables, where the carrying amount is reduced through the use of an allowance account. When a trade receivable becomes uncollectible, it is written off against the allowance account.

If in a subsequent period, the amount of the impairment loss decreases and the decrease can be related objectively to an event occurring after the impairment was recognised, the previously recognised impairment loss is reversed to the extent that the carrying amount of the asset does not exceed its amortised cost at the reversal date. The amount of reversal is recognised in profit or loss.

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.19 Impairment of financial assets (cont'd)

#### (b) Available-for-sale financial assets

Significant or prolonged decline in fair value below cost, significant financial difficulties of the issuer or obligor, and the disappearance of an active market are considerations to determine whether there is objective evidence that investment classified as available-for-sale financial assets are impaired.

If an available-for-sale financial asset is impaired, an amount comprising the difference between its cost (net of any principal payment and amortisation) and its current value, less any impairment loss previously recognised in profit or loss, is transferred from equity to profit or loss.

Impairment losses on available-for-sale investments are not reversed in profit or loss in the subsequent periods. Increase in fair value, if any, subsequent to impairment loss is recognised in other comprehensive income. For available-for-sale investments, impairment losses are subsequently reversed in profit or loss if an increase in the fair value of the investment can be objectively related to an event occurring after the recognition of the impairment loss in profit or loss.

### 2.20 Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand, demand deposits, and short-term highly liquid investments that are readily convertible to known amount of cash and which are subject to an insignificant risk of changes in value. These also include bank overdrafts that form an integral part of the Group's cash management.

### 2.21 Share capital and share issuance expenses

An equity instrument is any contract that evidences a residual interest in the assets of the Group and the Company after deducting all of its liabilities. Ordinary shares are equity instruments.

Ordinary shares are recorded at the proceeds received, net of directly attributable incremental transaction costs. Ordinary shares are classified as equity. Dividends on ordinary shares are recognised in equity in the period in which they are declared.

### 2.22 Treasury shares

When shares of the Company, that have not been cancelled, recognised as equity are reacquired, the amount of consideration paid is recognised directly in equity. Reacquired shares are classified as treasury shares and presented as a deduction from total equity. No gain or loss is recognised in profit or loss on the purchase, sale, issue or cancellation of treasury shares. When treasury shares are reissued by resale, the difference between the sale consideration and the carrying amount is recognised in equity.

# NOTES TO THE FINANCIAL STATEMENTS

– 31 DECEMBER 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.23 Financial liabilities

Financial liabilities are classified according to the substance of the contractual arrangements entered into and the definitions of a financial liability.

Financial liabilities, within the scope of MFRS 139, are recognised in the statement of financial position when, and only when, the Group and the Company become a party to the contractual provisions of the financial instrument. Financial liabilities are classified as either financial liabilities at fair value through profit or loss or other financial liabilities.

Trade and other payables are recognised initially at fair value plus directly attributable transaction costs and subsequently measured at amortised cost using the effective interest method.

Borrowings are recognised initially at fair value, net of transaction costs incurred, and subsequently measured at amortised cost using the effective interest method. Borrowings are classified as current liabilities unless the Group and the Company have an unconditional right to defer settlement of the liability for at least 12 months after the reporting date.

For other financial liabilities, gains and losses are recognised in profit or loss when the liabilities are derecognised, and through the amortisation process.

A financial liability is derecognised when the obligation under the liability is extinguished. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as a derecognition of the original liability and the recognition of a new liability, and the difference in the respective carrying amounts is recognised in profit or loss.

### 2.24 Provisions

A provision is recognised if, as a result of a past event, the Group has a present legal or constructive obligation that can be estimated reliably, and it is probable that an outflow of economic benefits will be required to settle the obligation.

### 2.25 Government grants

Government grants are recognised in the consolidated financial statements initially as deferred income when there is reasonable assurance that they will be received and that the Group will comply with the conditions attaching to them. Grants that compensate the Group for expenses incurred are recognised as revenue in the profit or loss on a systematic basis in the same periods in which the expenses are incurred. Grants that compensate the Group for the cost of an asset are recognised in the profit or loss as revenue on a systematic basis over the useful life of the asset. As the government grant is received for capital project, it is recognised as government grant received in advance.

### 2.26 Segment reporting

For management purposes, the Group is organised into operating segments based on their products and services which are independently managed by the respective segment managers responsible for the performance of the respective segments under their charge. The segment managers report directly to the management of the Company who regularly review the segment results in order to allocate resources to the segments and to assess the segment performance. Additional disclosures on each of these segments are shown in Note 33, including the factors used to identify the reportable segments and the measurement basis of segment information.

# NOTES TO THE FINANCIAL STATEMENTS

– 31 DECEMBER 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.27 Financial guarantee contracts

A financial guarantee contract is a contract that requires the issuer to make specified payments to reimburse the holder for a loss it incurs because a specified debtor fails to make payment when due in accordance with the original or modified terms of a debt instrument.

The Group designates corporate guarantees given to banks for credit facilities granted to subsidiaries and jointly control entities as insurance contracts as defined in MFRS 4 Insurance Contracts. The Group recognises these insurance contracts as recognised insurance liabilities when there is a present obligation, legal or constructive, as a result of a past event, when it is probable that an outflow of resources embodying economic benefits would be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

### 2.28 Contingencies

A contingent liability or asset is a possible obligation or asset that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of uncertain future event(s) not wholly within the control of the Group.

The Group does not recognise contingent assets and liabilities, but discloses its existence in the financial statements, unless the possibility of an outflow of resources embodying economic benefit is remote.

### 2.29 Leases

#### (a) Finance Lease – the Group as Lessee

Assets acquired by way of finance leases where the Group assumes substantially all the benefits and risks of ownership are classified as property, plant and equipment.

Finance lease are capitalised at the inception of the lease at the lower of the fair value of the leased property and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges. The corresponding finance lease obligations, net of finance charges, are included in borrowings. The interest element of the finance charge is charged to profit or loss over the lease period so as to produce a constant periodic rate of interest on the remaining balance of the liability for each period.

Property, plant and equipment acquired under finance lease is depreciated in accordance with the depreciation policy for property, plant and equipment.

#### (b) Operating Lease – the Group as Lessee

Operating lease payments are recognised as an expense on a straight-line basis over the term of the relevant lease. The aggregate benefit of incentive provided by the lessor is recognised as a reduction of rental expense over the lease term on a straight-line basis. The up-front payment for lease of land represents prepaid land lease payments and are amortised on a straight-line basis over the lease term.

#### (c) Operating Lease – the Group as Lessor

Assets leased out under operating leases are presented on the statements of financial position according to the nature of the assets. Rental income from operating leases is recognised on a straight-line basis over the term of the relevant lease.

# NOTES TO THE FINANCIAL STATEMENTS

– 31 DECEMBER 2014

## 2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (cont'd)

### 2.30 Fair value measurement

The Group and the Company adopted MFRS 13 Fair Value Measurement which prescribed that fair value of an asset or a liability, is determined as the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The measurement assumes that the transaction to sell the asset or transfer the liability takes place either in the principal market or in the absence of a principal market, in the most advantageous market.

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES

Significant areas of estimation, uncertainty and critical judgement used in applying accounting principles that have significant effect on the amount recognised in the financial statements are as follows:

### (i) Useful lives of property, plant and equipment

The cost of property, plant and equipment is depreciated on a straight line basis over the assets' useful lives. Management estimates the useful lives of these property, plant and equipment to be within 3 to 50 years. These are common life expectancies applied generally. Changes in the expected level of usage could impact the economic useful lives and the residual values of these assets and therefore, future depreciation changes could be revised.

### (ii) Impairment of available-for-sale investments

The Group reviews its unquoted investments classified as available-for-sale investments at each reporting date to assess whether they are impaired. The Group also records impairment charges on available-for-sale investments when there has been a significant or prolonged decline in the fair value below their cost.

The determination of what is "significant" or "prolonged" requires judgement. In making this judgement, the Group evaluates, among other factors, the duration and extent to which the fair value of an investment is less than its cost.

### (iii) Impairment of receivables

The Group assesses at each reporting date whether there is any objective evidence that a financial asset is impaired. To determine whether there is objective evidence of impairment, the Group considers factors such as the probability of insolvency or significant financial difficulties of the debtor and default or significant delay in payments.

### (iv) Deferred tax assets

Deferred tax assets are recognised for all unused tax losses to the extent that it is probable that taxable profit will be available against which the losses can be utilised. Significant management judgement is required to determine the amount of deferred tax assets that can be recognised, based on the likely timing and level of future taxable profits together with future tax planning strategies.

Assumptions about generation of future taxable profits depend on management's estimates of future cash flows. These depend on estimates of future production and sales volume, operating costs, capital expenditure, dividends and other capital management transactions. Judgement is also required about application of income tax legislation. These judgements and assumptions are subject to risks and uncertainty, hence there is a possibility that changes in circumstances will alter expectations, which may impact the amount of deferred tax assets recognised in the statements of financial position and the amount of unrecognised tax losses and unrecognised temporary differences.

# NOTES TO THE FINANCIAL STATEMENTS

– 31 DECEMBER 2014

## 3. SIGNIFICANT ACCOUNTING JUDGEMENTS AND ESTIMATES (cont'd)

Significant areas of estimation, uncertainty and critical judgement used in applying accounting principles that have significant effect on the amount recognised in the financial statements are as follows: (cont'd)

### (v) Impairment of investments, amount owing by subsidiaries and joint controlled entities

The directors review the investments, amount owing by subsidiaries and jointly controlled entities for impairment when there is an indication of impairment. This involves measuring the recoverable amount which includes fair value less costs to sell and valuation techniques. Valuation techniques include discounted cash flows analysis and in some cases, based on current market indicators and estimates that provide reasonable approximations to the detailed computation. For quoted investment, the directors make impairment loss based on assessment whether the decline in the market value is of permanent in nature together with the assessment on the prospect of the business. Where expectations differ from the original estimate, the differences will impact the carrying amount of these investments.

### (vi) Joint arrangements

The Group holds 50% of the voting rights of its joint arrangement. The Group has joint control over this arrangement as under the contractual agreements, unanimous consent is required from all parties to the agreements for all relevant activities.

The Group's joint arrangement is structured as a limited company and provides the Group and the parties to the agreements with rights to the net assets of the limited company under the arrangements. Therefore, this arrangement is classified as a jointly venture.

### (vii) Revaluation of warehouse and office buildings

The Group carries its warehouse and office buildings, which are included in property, plant and equipment, at fair values. The Group engaged an independent professionally qualified valuer to determine fair value at a regular interval of at least once in every five years with additional valuations in the intervening years where market conditions indicate that the carrying amount materially differ from the market values.

# NOTES TO THE FINANCIAL STATEMENTS

– 31 DECEMBER 2014

---

## 7. TAX EXPENSE/(CREDIT) (cont'd)

Domestic income tax is calculated at the Malaysian statutory tax rate of 25% (2013: 25%) of the estimated assessable profit for the financial year. The domestic statutory tax rate will be reduced to 24% from the current year's rate of 25% with effect from the year of assessment 2016. The computation of deferred tax as at 31 December 2014 and 31 December 2013 has reflected these changes.

Tax expense for other jurisdictions is calculated at the rates prevailing in the respective jurisdictions.

The Company has tax exempt income available for distribution by way of tax exempt dividend of approximately RM241,188,433 (2013: RM225,086,783). The tax exempt income is in respect of chargeable income of which income tax had been waived and second tier dividend income.

The Group has unutilised tax losses of RM51,798,700 (2013: RM48,604,600) available for set-off against future taxable profits.

## 8. DISCONTINUED OPERATIONS

On 28 June 2013, Integrated Logistics (H.K.) Limited ("ILHK"), an indirect 70% owned subsidiary of the Company entered into a Deed of Sale and Purchase ("Deed") with Winfair International Holdings Limited ("Winfair"), a wholly-owned subsidiary of C.J.H. Investment Company Limited who has guaranteed the performance of Winfair's obligations under the Deed, for the disposal by ILHK of its entire equity interest in ISH Logistics (Shenzhen II) Limited and Integrated Logistics Henan (H.K.) Limited (the "Target Companies") to Winfair for a total cash consideration of RMB998.0 million (equivalent to approximately RM533.93 million). Net consideration payable to ILHK pursuant to the Deed shall be the total consideration less outstanding loans and intercompany payables and subject to the adjustment of an amount equal to the net current assets (the "Adjustment Sum") of the Target Companies at the Completion Date.

The disposal was completed on 30 October 2013 upon fulfilment of all the Conditions Precedent of the Deed.

The valuation of warehouse and office buildings as at 31 December 2014 is determined using replacement cost approach which determines the cost to replace an asset at current prices. In the view of the lack of comparable market data of similar buildings in the vicinity where the Group's warehouse and office buildings are situated, the valuation was based on significant unobservable inputs and is therefore recognised under level 3 of the fair value hierarchy.

## 10. PROPERTY, PLANT AND EQUIPMENT (cont'd)

- (c) The directors and the professional valuer consider that it is appropriate to use the replacement cost approach since the directors will use the warehouse and office buildings for long –term yield from production of logistics services for best utilisation of the buildings for maximisation of returns rather than primarily for rental income and will not dispose the warehouse and office buildings in the short run.

The key unobservable inputs of the valuation include average construction cost per square meter of RM1,273 (equivalent to RMB2,300), direct administrative cost of approximately 3%, interest rate on financing of approximately 3% and depreciated rates of 89% and 97%. These assumptions are estimated by the professional valuer based on the risk profile of the warehouse and office buildings being value.

The valuation of the leasehold buildings as at 31 December 2013 was determined by reference to valuation reports prepared by the professional valuer based on discounted cash flows of the buildings in view of the lack of comparable market data of similar buildings in the vicinity where the group's buildings were situated and the fair value was recognised as level 3 of the fair value hierarchy.

There were no transfers between level 1, level 2 and level 3 during the financial years ended 31 December 2014 and 31 December 2013.

## 15. INTEREST IN A JOINTLY CONTROLLED ENTITY (cont'd)

The amount owing by a jointly controlled entity is solely due from Integrated National Logistics DWC-LLC ("INL") which is non-trade in nature, unsecured and interest free. The settlement of the amount is neither planned nor likely to occur in the foreseeable future. The Group's intention is to provide adequate funds to the jointly controlled entity to meet its liabilities as and when they fall due. As this amount is, in substance, part of the Group's net investment in the jointly controlled entity, it is stated at cost less accumulated impairment losses.

The amount owing by a jointly controlled entity is denominated in United Arab Emirates Dirham.

(a) The details of jointly controlled entities are as follows:-

| Name of Company                         | Country of Incorporation | Principal Activities                         | Effective Equity Interest |      |

### Receivables that are neither past due nor impaired

Trade receivables that are neither past due nor impaired are creditworthy debtors with good payment records with the Group.

None of the Group's trade receivables that are neither past due nor impaired have been renegotiated during the financial year.

### Receivables that are past due but not impaired

The Group has trade receivables amounting to RM6,977,625 (2013: RM2,654,416) that are past due at the reporting date but not impaired.

No impairment loss on trade receivables has been made as, in the opinion of the management, the debts would be collected in full within the next twelve months.

The Group does not hold any collateral or other credit enhancements over these balances.

## 24. RESERVES

### (a) Asset revaluation reserve

The asset revaluation reserve represents increase in the fair value of warehouse and office buildings, net of tax, and decrease to the extent that such decrease relates to an increase on the same asset previously recognised in other comprehensive income.

### (b) Statutory reserve fund

In accordance with the Foreign Enterprise Law applicable to the subsidiaries in The People's Republic of China ("PRC"), the subsidiaries are required to make appropriation to a Statutory Reserve Fund ("SRF"). At least 10% of the statutory income after tax profits as determined in accordance with the applicable PRC accounting standards and regulations must be allocated to the SRF until the cumulative total of the SRF reaches 50% of the subsidiary's registered capital. Subject to approval from the relevant PRC authorities, the SRF may be used to offset any accumulated losses or increase the registered capital of the subsidiary. The SRF is not available for dividend distribution to shareholders.

### (c) Foreign exchange translation reserve

The foreign exchange translation reserve represents exchange differences arising from the translation of the financial statements of foreign operations whose functional currencies are different from that of the Group's presentation currency.

### (d) Fair value reserve

Fair value reserve represents the cumulative fair value changes, net of tax, of available-for-sale financial assets until they are disposed off or impaired.

# NOTES TO THE FINANCIAL STATEMENTS

## 33. SEGMENT ANALYSIS

For management purposes, the Group is organised into business segments based on their services and has three reportable operating segments as follows:-

- (i) Warehousing and related value added services - rental of warehouses, handling and providing logistics solution services
- (ii) Freight forwarding - sea and air freight forwarding and shipping agent
- (iii) Transportation and distribution - trucking and container haulage

Other non-reportable segments comprise of investment holding and management services.

Management monitors the operating results of its business segments separately for the purpose of making decisions about resource allocation and performance assessment. Segment performance is evaluated based on operating profit or loss which, in certain respects is measured differently from operating profit or loss in the consolidated financial statements.

Segment assets and liabilities information are neither included in the internal management reports nor provided regularly to the management. Hence, no disclosures are made on segment assets and liabilities.

Transfer prices between operating segments are carried out on negotiated terms.

## 38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES

The Group and the Company are exposed to financial risks arising from its operations and the use of financial instruments. The key financial risks include foreign currency risk, interest rate risk, credit risk and liquidity risk.

The Board of Directors reviews and agrees policies and procedures for the management of these risks, which are exercised by the Executive Directors and the Financial Controller. The Audit Committee provides independent oversight to the effectiveness of the risk management process.

The Group's and the Company's exposure to the financial risks and the objectives, policies and processes put in place to manage these risks are discussed below:-

### i. Foreign Currency Risk

Foreign currency risk is the risk that the fair value or future cash flows of a financial instrument will fluctuate because of changes in foreign exchange rates.

The Group has transactional currency exposures arising from loans and borrowings that are denominated in a currency other than the functional currencies of the Group entities, primarily RM, Chinese Renminbi ("RMB") and Hong Kong Dollar ("HKD"). The foreign currencies in which these transactions are denominated in are United States Dollar ("USD") and United Arab Emirates Dirham ("UAE").

Foreign exchange exposures in transactional currencies other than functional currencies of the operating entities are kept to an acceptable level.

As at the end of the financial year, if RMB had strengthened or weakened 100 basis points against HKD and USD with all other variables held constant, the Group's profit after tax for the financial year would increase/(decrease) by the following amounts.

|                      | <b>Group</b> |             |
|----------------------|--------------|-------------|
|                      | <b>2014</b>  | <b>2013</b> |
|                      | <b>RM</b>    | <b>RM</b>   |
| RMB/HKD - strengthen | (10,698)     | (342,124)   |
| - weaken             | 10,698       | 342,124     |
| RMB/USD - strengthen | (22,939)     | 1,843       |
| - weaken             | 22,939       | (1,843)     |

As at the end of the financial year, if Ringgit Malaysia had strengthened or weakened 100 basis points against UAE and HKD with all other variables held constant, the Company's profit after tax for the financial year would increase/(decrease) by the following amounts.

|                     | <b>Company</b> |             |

## 38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

### i Foreign Currency Risk (cont'd)

The net unhedged financial assets and financial liabilities of the Group and of the Company that are not denominated in their functional currencies are disclosed in Notes 13, 14, 15, 16, 17, 18, 19, 20, 22, 25, 26, 29 and 30.

### ii. Interest Rate Risk

Interest rate risk is the risk that the fair value or future cash flows of the Group's financial instruments will fluctuate because of changes in market interest rates. The Group's exposure to interest rate risk relates to interest bearing financial assets and liabilities.

Interest bearing financial assets includes deposits placed with licensed banks which are placed for better yield returns than cash at banks and advances to a jointly controlled entity at fixed rate which expose the Group to fair value risk.

The Group's interest bearing financial liabilities comprise bank borrowings and loan from a corporate shareholder at floating rate which expose the Company to cash flows risk.

The Group manages its interest rate exposure by maintaining a prudent mix of fixed and floating rate borrowings. The Group actively reviews its debt portfolio, taking into account the investment holding period and nature of its assets.

The Group does not account for any fixed rate financial assets and liabilities at fair value through profit or loss. Therefore, a change in interest rate at the end of the financial year would not affect profit or loss.

As at the end of the financial year, a change of 100 basis points in interest rates, with all other variables held constant, would decrease or increase the equity and profit after tax by approximately RM nil (2013: RM35,008) arising mainly as a result of lower/higher interest income on floating deposits rate and lower/higher interest expense on floating rate loans and borrowings.

### iii. Credit Risk

Credit risk is the risk of a financial loss to the Group that may arise if a customer or counterparty to a financial instrument default on its contractual obligations. The Group's exposure to credit risk arises principally from its receivables. The Company's exposure to credit risk arises principally from loans and advances to subsidiaries and the financial guarantees given.

#### Receivables

The Group has a credit policy in place and the exposure to credit risk is managed through the application of credit approvals, credit limits and monitoring procedures.

The Group's maximum exposure to credit risk arising from the receivables is represented by the carrying amounts in the statements of financial position.

## 38. FINANCIAL RISK MANAGEMENT OBJECTIVES AND POLICIES (cont'd)

### iii. Credit Risk (cont'd)

#### Receivables (cont'd)

The exposure of credit risk for receivables as at the end of the financial year by geographic region is as follows:-

|                                | Group     |       |            |       |
|--------------------------------|-----------|-------|------------|-------|
|                                | 2014      | % of  | 2013       | % of  |
|                                | RM        | total | RM         | total |
| The People's Republic of China | 9,585,803 | 100%  | 11,339,894 | 100%  |

The Group does not have any significant exposure to any individual customer. A significant portion of its trade receivables are regular customers that have been transacting with the Group. The Group uses ageing analysis to monitor the credit quality of the trade receivables. The ageing of trade receivables as at the end of the financial year is disclosed in Note 19.

#### Financial Guarantees

The Company provides unsecured corporate guarantees to banks in respect of banking facilities granted to certain subsidiaries and a jointly controlled entity.

The Company monitors on an ongoing basis the repayments made by the subsidiaries and a jointly controlled entity and their financial performance.

The maximum exposure to credit risk amounts to RM4,667,677 in the previous financial year and RM49,489,281 (2013: RM41,947,838) representing the outstanding banking facilities of the subsidiaries and a jointly controlled entity as at the end of the financial year.

As at the end of the financial year, there was no indication that any of these subsidiaries and a jointly controlled entity would default on repayment.

The financial guarantee has not been recognised in the financial statements of the Company since the financial guarantees provided by the Company did not contribute towards credit enhancement of the subsidiaries' and of the jointly controlled entity's borrowings in view of the security pledged by the subsidiaries and a jointly controlled entity and it is unlikely that the subsidiaries and the jointly controlled entity will default within the guarantee period.

### iii. Credit Risk (cont'd)

#### Receivables (cont'd)

#### Inter-Company/Related Party Balances

The Company provides unsecured loans and advances to subsidiaries and a jointly controlled entity. The maximum exposure to credit risk is represented by their carrying amounts in the statements of financial position as at the end of the financial year.

As at the end of the financial year, there was no indication that the loans and advances to the subsidiaries and jointly controlled entities are not recoverable.

### iv. Liquidity Risk

Liquidity risk is the risk that the Group will not be able to meet its financial obligations as they fall due. The Group's exposure to liquidity risk arises principally from loans and borrowings.

The Group actively manages its operating cash flows and the availability of funding so as to ensure that all repayment and funding needs are met. The Group strives to maintain available banking facilities of a reasonable level to its overall debt position.

The Group employs projected cash flow analysis to manage liquidity risk by forecasting the amount of cash required and by monitoring the working capital of the Group to ensure that all liabilities due and known funding requirements could be met.

## 39. FINANCIAL INSTRUMENTS (cont'd)

### (b) Fair values of financial instruments

The carrying amounts of financial instruments of the Group and of the Company as at the end of reporting period approximate their fair values.

### (c) Methods and assumptions used to estimate fair value

The fair value of the following classes of financial assets and liabilities are as follows:

#### (i) Cash and cash equivalents, receivables and payables

The carrying amounts of cash and cash equivalents, receivables and payables are reasonable approximation of fair values due to short term nature of these financial instruments.

#### (ii) Other investments

The fair value of shares and short term funds quoted in an active market is determined by reference to the quoted closing bid price at the reporting date.

#### (iii) Borrowings

The carrying amounts of the current portion of borrowings are reasonable approximation of fair values due to the insignificant impact of discounting.

The carrying amount of long term floating rate loans approximates their fair value as the loans will be re-priced to market interest rate on or near reporting date.

## 40. FAIR VALUE HIERARCHY

The following table provides an analysis of financial instruments that are measured subsequent to initial recognition at fair value, grouped into Levels 1 to 3 based on the degree to which the fair value is observable.

- (i) Level 1 fair value measurements are those derived from quoted prices (unadjusted) in active markets for identical assets or liabilities;
- (ii) Level 2 fair value measurements are those derived from inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly (i.e. as prices) or indirectly (i.e. derived from prices); and
- (iii) Level 3 fair value measurements are those derived from inputs for the asset or liability that are not based on observable market data (unobservable inputs).

# NOTES TO THE FINANCIAL STATEMENTS

– 31 DECEMBER 2014

## 41. CAPITAL MANAGEMENT

The primary objective of the Group's capital management is to ensure that entities in the Group will be able to continue as a going concern, maintains a strong credit rating and healthy capital ratios in order to support its business and maximise shareholders' value.

Deposits are made at varying periods depending on the immediate cash requirements of the Group and of the Company, and earn interests at the respective short-term deposit rates.

The Group reviews the capital structure on an annual basis. As a part of this review, the directors consider the cost of capital and the risks associated with each class of capital. The Group will balance its overall capital structure through the payment of dividends, new share issues and share buy-backs as well as the issue of new debts or the redemption of existing debts.

No changes were made in the objectives, policies or processes during the financial years ended 31 December 2014 and 31 December 2013.

### AS SPECIAL BUSINESS

To consider and if thought fit, pass the following as Ordinary Resolution :-

### ORDINARY RESOLUTIONS

|   |                |
|---|----------------|
| 6. PROPOSED RENEWAL OF SHARE BUY-BACK AUTHORITY<br><br><b>THAT</b> , subject to the Company's compliance with all applicable rules, regulations, orders and guidelines made pursuant to the Companies Act, 1965, the provisions of the Company's Memorandum and Articles of Association and the Main Market Listing Requirements of Bursa Malaysia Securities Berhad ("Bursa Securities") and the approvals of all relevant authorities, the Company be and is hereby authorised, to the fullest extent permitted by law, to buy back and/or hold from time to time and at any time such amount of ordinary shares of RM1.00 each in the Company as may be determined by the Directors of the Company from time to time through Bursa Securities upon such terms and conditions as the Directors may deem fit and expedient in the interests of the Company (the Proposed Share Buy-Back") provided that :- | (Resolution 5) |
|---|----------------|

## NOTICE OF ANNUAL GENERAL MEETING

6. i) The maximum number of shares which may be purchased and/or held by the Company at any point of time pursuant to the Proposed Share Buy-Back shall not exceed ten (10) per cent of the total issued and paid-up share capital of the Company from time to time being quoted on Bursa Securities provided always that in the event that the Company ceases to hold all or any part of such shares as a result of, amongst others, cancellation of shares, sale of shares on the market of Bursa Securities or distribution of treasury shares to shareholders as dividend in respect of shares bought back under the previous shareholders' mandate for share buy-back which was obtained at the Annual General Meeting held on 4 April 2014, the Company shall be entitled to further purchase and/or hold such additional number of shares as shall (in aggregate with the shares then still held by the Company) not exceed ten per centum (10%) of the total issued and paid-up share capital of the Company for the time being quoted on Bursa Securities.
- ii) The maximum amount of funds to be allocated for the purchase of the shares pursuant to the Proposed Share Buy-Back shall not exceed the aggregate of retained profits and/or share premium account of the Company based on its latest audited accounts available up to the date of a transaction pursuant to the Proposed Share-Buy Back. As at 31 December 2014, the audited Retained Profits and Share Premium Account of the Company were RM53,556,997 and RM15,096,203 respectively.
- iii) The Proposed Share Buy-Back to be undertaken will be in compliance with Section 67A of the Companies Act, 1965 and the Directors will deal with the shares purchased in the following manner:-
  - (a) to cancel the Shares so purchased; or
  - (b) to retain the Shares so purchased as treasury shares for distribution as dividends to the shareholders of the Company and/or re-sell on Bursa Securities in accordance with the Main Market Listing Requirements of Bursa Securities and/or cancellation subsequently; or
  - (c) to retain part of the Shares so purchased as treasury shares and cancel the remainder.

**AND THAT** such authority to purchase the Company's own shares will be effective immediately from the passing of this resolution until the conclusion of the next Annual General Meeting ("AGM") at which such resolution was passed at which time the authority would lapse unless renewed by ordinary resolution, either unconditionally or conditionally or the passing of the date on which the next AGM is required by law to be held or the authority is revoked or varied by ordinary resolution passed by the shareholders of the Company in a general meeting but so as not to prejudice the completion of a purchase made before such expiry date;

**AND THAT** the Directors of the Company be and are hereby authorised to take all steps as are necessary or expedient to implement or to give effect to the Proposed Share Buy-Back with full powers to amend and/assent to any conditions, modifications, variations or amendments (if any) as may be imposed by the relevant governmental/regulatory authorities from time to time and with full power to do all such acts and things in accordance with the Companies Act, 1965, the provisions of the Company's Memorandum and Articles of Association and the Main Market Listing Requirements of Bursa Securities and all other relevant governmental/regulatory authorities.

# NOTICE OF ANNUAL GENERAL MEETING

## 7. AUTHORITY TO ISSUE SHARES PURSUANT TO SECTION 132D OF THE COMPANIES ACT, 1965

(Resolution 6)

**THAT** subject to Section 132D of the Companies Act, 1965 and the approvals of the relevant governmental/regulatory authorities, the Directors be and are hereby empowered to issue shares in the Company at any time and upon such terms and conditions and for such purposes as the Directors may, in their absolute discretion, deem fit, provided that the aggregate number of shares issued pursuant to this Resolution in any one financial year does not exceed ten per cent (10%) of the issued and paid-up share capital of the Company for the time being.

**AND THAT** such authority shall commence immediately upon passing of this Resolution and continue to be in force until the conclusion of the next Annual General Meeting of the Company.

By Order of the Board  
Amarjit Singh A/L Banta Singh  
Company Secretary  
Selangor Darul Ehsan  
Date: 24 March 2015

## NOTES

1. In respect of deposited securities, only members whose names appear in the Record of Depositors on 10th April 2015 (General Meeting Record of Depositors) shall be entitled to attend, speak and vote at this 23rd AGM.
2. Any member of the Company entitled to attend and vote is entitled to appoint one (1) or more proxies to attend and vote instead of him. A proxy need not be a member of the Company and where a member appoints more than one (1) proxy, the member must specify the proportion of his shareholdings to be represented by each proxy respectively, failing which the appointment shall be invalid.
3. If you wish to appoint as your proxy any person other than "the Chairman of the Meeting", please insert the full name of the proxy (in block letters) in the space provided and delete the words "the Chairman of the Meeting".
4. Where a member of the Company is an exempt authorised nominee which holds ordinary shares in the Company for multiple beneficial owners in one (1) securities account ("Omnibus Account"), there is no limit to the number of proxies which the exempt authorised nominee may appoint in respect of each Omnibus Account it holds.
5. A corporation may complete the proxy form under its common seal or under the hand of an officer or attorney duly authorized.
6. The instrument appointing a proxy must reach the Business Office of the Company at Indera Subang, Jalan USJ 6/2L, 47610 UEP Subang Jaya, Selangor Darul Ehsan, Malaysia not less than 48 hours before the AGM. The lodging of the proxy form will not preclude shareholders from attending and voting in person at the AGM should they subsequently wish to do so.

# NOTICE OF ANNUAL GENERAL MEETING

## EXPLANTORY NOTES

### 1. Item (1) of the Agenda

This Agenda item is meant for discussion only as under the provisions of Section 169(1) of the Companies Act, 1965, the audited financial statements do not require formal approval of shareholders and hence, the matter will not be put forward for voting.

### 2. Item (6) of the Agenda

The proposed ordinary resolution, if passed, will empower the Directors of the Company to buy back and/or hold from time to time shares of the Company not exceeding ten (10) per cent of the issued and paid-up share capital of the Company from time to time being quoted on Bursa Securities as may be determined by the Directors of the Company from time to time through Bursa Securities upon such terms and conditions as the Directors may deem fit and expedient in the interests of the Company.

For further information, please refer to the Share Buy-Back Statement dated 24 March 2015, which is dispatched together with the Annual Report 2014.

### 3. Item (7) of the Agenda

- (i) The proposed ordinary resolution, if passed, will empower the Directors of the Company to issue shares in the Company up to an amount not exceeding 10% of the total issued capital of the Company for the time being and for such purposes as the Directors would consider to be in the best interests of the Company. This authority, unless revoked or varied by the shareholders of the Company in general meeting, will expire at the conclusion of the next AGM of the Company.
- (ii) This is a renewal of the general mandate for the issue of new ordinary shares in the Company which was approved at the last AGM of the Company. The Company did not issue any new shares after the previous mandate was obtained at the last AGM.
- (iii) The general mandate will provide flexibility to the Company for allotment of shares for any possible fund raising activities, including but not limited to further placing of shares, for the purpose of funding future investment project(s) working capital and/or acquisitions and would enable the Company to avoid delay and cost of convening further general meetings to approve the issue of shares for such purposes.
- (iv) At this juncture, there is no decision to issue any new shares. Should there be a decision to issue new shares pursuant to the general mandate obtained, the Company will make an announcement in respect of the purpose and/or utilisation of proceeds arising from such an issue of shares.
